

Beechcraft Baron 55

Official Unofficial Owner Survey

Information Compiled May 2016

Survey Conducted by Zack Sicher
zsicher@gmail.com

I. Introduction

A survey was completed May 2016 by members of the Beechcraft Owners and Pilots Group known as Beechtalk (www.beechtalk.com). While this survey is not affiliated with Beechtalk, the responses by its members were vital and greatly appreciated. Eighty-one Baron 55 owners graciously submitted anonymous answers to the following twenty-two survey questions:

1. What model Baron do you own or operate?
2. What year did you purchase your aircraft?
3. In what year was your plane manufactured?
4. What is the approximate total time on the airframe?
5. How many hours per year do you typically fly?
6. Do you typically run your engine lean of peak EGT or rich of peak EGT in cruise?
7. What is the typical fuel burn in GPH during cruise flight?
8. What is your average true airspeed in cruise flight?
9. What is your typical cruise altitude for normal flights?
10. What distance is your typical flight segment?
11. What is the average cost of an annual inspection?
12. Not counting the annual inspection, how much do you spend on maintenance?
13. Do you perform any of your own maintenance?
14. What was the purchase price of your Baron?
15. How much is your annual insurance premium?
16. How much is your monthly hangar rent?
17. Do you budget engine and prop overhaul costs?
18. What is your current engine time?
19. DO you have ice protection?
20. Do you meet the 2020 ADSB mandate?
21. What do you feel your Baron is worth in current condition?
22. Approximately how much have you invested in aircraft improvements since purchase?

While this survey was not intended to be statistically perfect or encompass all potential ownership questions, it certainly can be used to inform potential buyers or as a comparison for existing owners.

II. Survey Notes

Fuel Burn

Owners were asked if they fly their plane lean of peak EGT (LOP) or rich of peak EGT (ROP). For simplicity sake, all fuel burn data was not separated based on the type of fuel management style used. The averages used to calculate operating costs consist of both LOP and ROP fuel numbers. Those who operate ROP will see slightly higher fuel costs than shown and those who operate LOP will see lower fuel costs.

Maintenance Costs

A portion of owners perform some measure of maintenance on their plane. This ranged from simply completing oil changes to Owner/A&P's performing full annuals on their aircraft. Again, to keep this survey and the analysis simple, maintenance cost averages were not adjusted by the amount of owner completed service performed. Those who perform no owner maintenance will see slightly elevated costs while those who do extensive work on their plane will see reduced costs. Since there were limited responses consisting of individuals doing 100% of their own maintenance, this data should still be accurate.

Hanger Costs

Some responses included costs that fell outside of the normal data set. These include aircraft owners who also own a hanger or owners that do not pay for hanger usage. To preserve the real average, these responses were removed.

Additional Operating Costs

There are other operating costs not included in this general survey, some of which may significantly increase overall costs but will vary greatly by owner. Examples of these costs include aircraft financing and taxes.

III. Operating Costs

Below table outlines typical operating costs based on the results of the survey data.

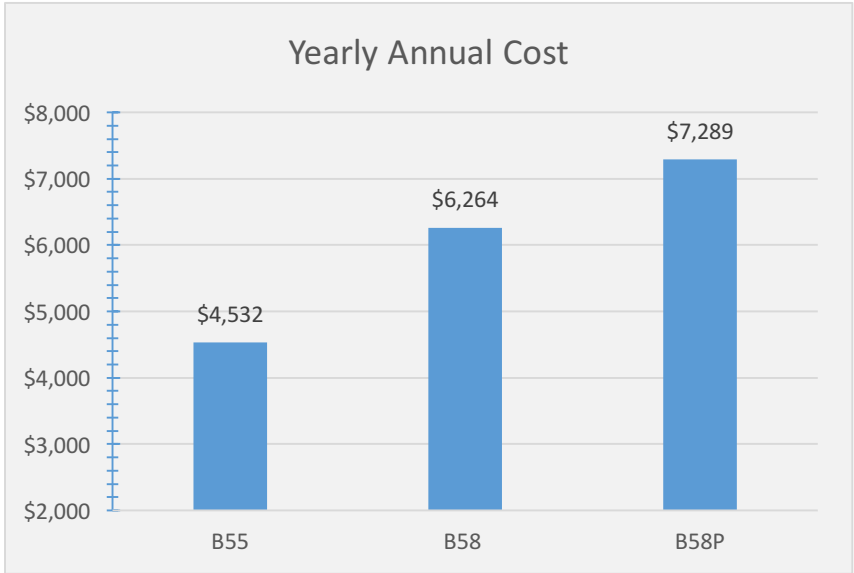

Baron 55 Operating Costs

Survey Data:	Cost to Fly 50 Hrs per Year	Cost to Fly 100 Hrs per Year	Cost to Fly 150 Hrs per Year
Hrs/Year	76	Variable Costs:	Variable Costs:
Fuel Burn (GPH)*	24.3	Fuel*** \$5,661	Fuel*** \$11,322
Percent Who Run LOP	54%	Non-Annual Mx \$2,885	Non-Annual Mx \$2,885
Annual Inspection Cost	\$4,532	Total Variable Costs: \$8,546	Total Variable Costs: \$14,208
% Who Do Own Mx	62%		
% of Maintenance Performed	40%	Fixed Costs:	Fixed Costs:
Other than Annual Mx Cost	\$2,885	Annual Inspection \$4,532	Annual Inspection \$4,532
Annual Insurance Premium	\$2,899	Insurance \$2,899	Insurance \$2,899
Monthly Hanger Fee**	\$389	Hanger Fee \$4,673	Hanger Fee \$4,673
		Total Fixed Costs: \$12,104	Total Fixed Costs: \$12,104
* Includes both LOP and ROP operations			
** Owned Hanger Data Removed		Total per Year w/o OH Reserves \$20,651	Total per Year w/o OH Reserves \$26,312
***US National Ave 5/1/16 Air Nav:	\$4.65	Total per Year w/ OH Reserves \$23,826	Total per Year w/ OH Reserves \$32,663
Typical Engine and Prop OH Cost (RAM IO-520-CB)	\$53,980		
TBO	1700	Total Cost per Hour w/o Reserves \$413	Total Cost per Hour w/o Reserves \$263
OH Cost Per Hour Total	\$63.51	Total Cost per Hour w/ Reserves \$477	Total Cost per Hour w/ Reserves \$327

IV. Model Comparisons

The same survey was performed across all Baron models concurrently. Below is data comparing findings across the 58, 58P and all 55 models.

V. Conclusion

The goal of this comprehensive survey was to gather relevant real world data and compile in a way that may be beneficial to current Baron owners as well as individuals who are contemplating entering into Baron ownership. While the overall sample size is very small compared to the actual number of Baron owners worldwide, the data enclosed in this report should be accurate overall. It is a fair contention to say that owners who tend to actively participate in organized pilot groups, such as Beechtalk, tend to be more active in aircraft ownership. Therefore, one could assume those that participated in this survey have a better understanding of their individual aircraft data and may choose to maintain and upgrade their plane at a higher standard than the general ownership group. For this reason, the averages in this survey may reflect this style of ownership and consequently may be higher. Regardless, your costs or potential costs will vary depending on age, condition and catch up maintenance unique to that individual aircraft.

VI. Survey Data Supplement

Baron 55

1. What model Baron do you own or operate?		
Answer Options	Response Percent	Response Count
58	0.0%	0
58P	0.0%	0
55 (all models)	100.0%	81
<i>answered question</i>		81
<i>skipped question</i>		0

2. What year did you purchase?
