8. Description of Work Accomplished

(If more space is required, attach additional sheets. Identify with aircraft nationality and registration mark and date work completed.)

Fabricated and installed Composite Floor boards using existing floor boards as templates. Location of existing attaching holes were duplicated and NAS bushing potted in place using 3MDP100FR Fire Retard adhesive. Floor boards were fabricated using McGill "GillFab" .295 thick material. Structural aspects of this modification was FAA approved by DERT-750024 SW on FAA form 8110-3 dated 7/07/05.
