

F 35 Engine failure at 600' landed in plowed field

After landing police arrive

Landing smooth 20kt tail wind

Son was cool -

No damage to any control surfaces

Brought out a back hoe to lift it.  
Done right

Dug holes beneath wheels, then lowered.  
Made ramps with boards so could pull out

Ready to go, smoothed plowed ground  
with old car

Being towed on road from farm

Got Police escort through Goodland KN

Damage to belly

Damage, did need new nose gear  
doors
