## Sidewinder Power Driver

Dear Linn,

Within Europe, there are many aerodromes where you have to taxi to the petrol station without any engine power.

The Sidewinder Power Driver has proved very well here. Putting the aircraft into the hangar is quiet easy, too.

As far as the handling and the service of our order are concerned, I can only certificate the best. You were very cooperative and you initiated the best possible for a quick delivery.

The tool is constructed perfectly and easy to handle.

Dear Linn, I hope I could help you with this information and I also hope that you will sell many Sidewinder Power Driver in the future.

Best regards from Germany

Dr. Wolfram Winkler
